Rex 84B, short for Readiness Exercise 1984 Bravo, was a classified scenario and drill developed by the United States federal government to detain large numbers of United States residents deemed to be "national security threats" in the event that the president declared a National Emergency. The scenario envisioned state defense forces rounding up to 500,000 undocumented Central American residents and 4,000 American citizens whom the US Attorney General had designated as "national security threats" as part of the secret Continuity of Government program. These people would be detained at 22 military bases in concentration camps run by the Federal Emergency Management Agency.

Al-Araf (Arabic: ??????, al-ʿAraf; meaning: The Heights) is the 7th chapter (sʿrah) of the Qur'an, with 206 verses (?yʿt). Regarding the timing and contextual background of the revelation (Asbʿb al-nuzʿl), it is a "Meccan surah", which means it was revealed before the Hijra.

This chapter takes its name from verses 46–47, in which the word A'araf appears.

According to Abul A'la Maududi, the time of its disclosure is about the same as that of Al-An'am, i.e., the last year of the Islamic prophet Muhammad's residence at Makkah: the manner of its admonition clearly indicates that it belongs to the same period and both have the same historical background; however, it cannot be declared with assurance which of these two was uncovered before the other. The audience should keep in mind the introduction to Al-An'am.

Sagrada Família

Spain: La Vanguardia Ediciones S.L. ISBN 978-84-96642-73-7. Puig i Boada, Isidre (1952). El templo de la Sagrada Familia (in Spanish). Barcelona, Spain:

The Basílica i Temple Expiatori de la Sagrada Família, otherwise known as Sagrada Família, is a church under construction in the Eixample district of Barcelona, Catalonia, Spain. It is the largest unfinished Catholic church in the world. Designed by the Catalan architect Antoni Gaudí (1852–1926), in 2005 his work on Sagrada Família was added to an existing (1984) UNESCO World Heritage Site, "Works of Antoni Gaudí". On 7 November 2010, Pope Benedict XVI consecrated the church and proclaimed it a minor basilica.

On 19 March 1882, construction of Sagrada Família began under architect Francisco de Paula del Villar. In 1883, when Villar resigned, Gaudí took over as chief architect, transforming the project with his architectural and engineering style, combining Gothic and curvilinear Art Nouveau forms. Gaudí devoted the remainder of his life to the project, and he is buried in the church's crypt. At the time of his death in 1926, less than a quarter of the project was complete.

Relying solely on private donations, Sagrada Família's construction progressed slowly and was interrupted by the Spanish Civil War. In July 1936, anarchists from the FAI set fire to the crypt and broke their way into the workshop, partially destroying Gaudí's original plans. In 1939, Francesc de Paula Quintana took over site management, which was able to go on with the material that was saved from Gaudí's workshop and that was reconstructed from published plans and photographs. Construction resumed to intermittent progress in the 1950s. Advancements in technologies such as computer-aided design and computerised numerical control (CNC) have since enabled faster progress, and construction passed the midpoint in 2010. In 2014, it was anticipated that the building would be completed by 2026, the centenary of Gaudí's death, but this schedule was threatened by work slowdowns caused by the COVID-19 pandemic. In March 2024, an updated forecast reconfirmed a likely completion of the building in 2026, though the announcement stated that work on sculptures, decorative details and a controversial stairway leading to the main entrance is expected to continue until 2034.

Describing Sagrada Família, art critic Rainer Zerbst said "it is probably impossible to find a church building anything like it in the entire history of art", and Paul Goldberger describes it as "the most extraordinary personal interpretation of Gothic architecture since the Middle Ages".

Though sometimes described as a cathedral, the basilica is not the cathedral church of the Archdiocese of Barcelona; that title belongs to the Cathedral of the Holy Cross and Saint Eulalia (Barcelona Cathedral).
