Walibi Holland (previously called Walibi Flevo, Six Flags Holland and Walibi World) is a theme park in Biddinghuizen, Netherlands.

Elmer Fudd

what most people consider Elmer Fudd's first true appearance: a Chuck Jones short entitled Elmer's Candid Camera, actually Elmer's ninth appearance, in which

Elmer J. Fudd is an animated cartoon character in the Warner Bros. Looney Tunes/Merrie Melodies series and the archenemy of Bugs Bunny. Elmer Fudd's aim is to hunt Bugs, but he usually ends up seriously injuring himself and other antagonizing characters. He exhibits the speech sound disorder known as rhotacism, replacing his Rs and Ls with Ws thus referring to Bugs Bunny as a "scwewy" (screwy) or "wascawwy (rascally) wabbit." Elmer's signature catchphrase is, "Shhh. Be vewy, vewy quiet, I'm hunting wabbits", as well as his trademark laugh.

The best known Elmer Fudd cartoons include Chuck Jones' work What's Opera, Doc?, the Rossini parody Rabbit of Seville, and the "Hunting Trilogy" of "Rabbit Season/Duck Season" shorts (Rabbit Fire, Rabbit Seasoning, and Duck! Rabbit, Duck!) with Fudd, Bugs Bunny, and Daffy Duck. An earlier prototype of character named Elmer had some of Fudd's recognizable aspects before the character's more conspicuous features were set.

Weather vane

Look up weather vane in Wiktionary, the free dictionary. A wind vane, weather vane, or weathercock is a type of anemoscope used for showing the direction

A wind vane, weather vane, or weathercock is a type of anemoscope used for showing the direction of the wind. It is typically used as an architectural ornament to the highest point of a building. The word vane comes from the Old English word fana, meaning "flag".

Although partly functional, wind vanes are generally decorative, often featuring the traditional cockerel design with letters indicating the points of the compass. Other common motifs include ships, arrows, and horses. Not all wind vanes have pointers. In a sufficiently strong wind, the head of the arrow or cockerel (or equivalent) will indicate the direction from which the wind is blowing.

Wind vanes are also found on small wind turbines to keep the wind turbine pointing into the wind. If employed on a boat, they are referred to as apparent wind indicators.

Six Flags Discovery Kingdom

Antonio Zamperla S.p.A. is an Italian design and manufacturing company founded in 1966. It is best known for creating family rides, thrill rides and roller coasters worldwide. The company also makes smaller coin-operated rides commonly found inside shopping malls.

Zamperla builds roller coasters, like the powered Dragon Coaster, Mini Mouse, Zig Zag, and Volare. In 2006, Zamperla announced Motocoaster, a motorcycle-themed roller coaster. Rights to some of S.D.C.'s rides were handed to Zamperla (along with S&C and S&MC) after the company went bankrupt in 1993.

In 2005, the founder of the company, Mr. Antonio Zamperla, became the first Italian to be inducted into the IAAPA Hall of Fame by virtue of his significant contribution to the entire industry, joining other pioneers such as Walt Disney, George Ferris and Walter Knott.

Unlike companies such as Intamin, Vekoma, or Bolliger & Mabillard that concentrate on larger and faster roller coasters, Zamperla focuses on more family-friendly roller coasters that can be easily mass-produced, taken down, and transported to different locations. They are also a major manufacturer of flat rides with such names as: Balloon Race, Bumper cars, Disk'O, Ferris wheel, Water Flume Ride, Galleon/Swinging Ship, Sky Drop, Discovery, Windshear, Tornado, Energy Storm, Z-Force, Mixer, Rotoshake, Turbo Force, Power Surge, Mini Jet, and Air Race.
