

Is It Genuine

Genuine

up genuine in Wiktionary, the free dictionary. Genuine may refer to: Genuine Parts Company, a Fortune 1000 company that was founded in 1928 Genuine Scooters

Genuine may refer to:

Genuine Fractals

Genuine Fractals is a Photoshop plug-in developed and distributed by onOne Software of Portland, Oregon. The original Windows version of Genuine Fractals

Genuine Fractals is a Photoshop plug-in developed and distributed by onOne Software of Portland, Oregon. The original Windows version of Genuine Fractals was designed and developed by Altamira Group in Burbank, California under team leader Steven Bender in 1996. In 1997, Altamira released the Robert McNally-developed Version 2.0 on the Macintosh Platform and the redesigned Windows Version 2.0 product. The Genuine Fractals products were acquired by LizardTech in June 2001, before ultimately being acquired by onOne Software in July 2005.

As of version 7.0, the product was called Perfect Resize, and as of version 10, ON1 Resize. There are two main features in the Genuine Fractals plug-in. First is a feature to save image files in either FIF (Fractal Image Format) or its proprietary STN multi-resolution wavelet format. This format offers file compression ratios around 2:1 for lossless and 5:1 for visually lossless. The second main feature of Genuine Fractals is a scaling algorithm based on the use of PIFS (partitioned iterated function systems). When scaling up, Genuine Fractals exploits the self-similarity of an image to increase its size while preserving detail.

In 1997, Genuine Fractals won a MacWorld Eddy. It is also notable because Genuine Fractals was the first product developed on PC and ported to Mac to win an EDDY.

Genuine Risk

Genuine Risk (February 15, 1977 – August 18, 2008) was an American Thoroughbred racehorse and broodmare best known for winning the 1980 Kentucky Derby

Genuine progress indicator

Genuine progress indicator (GPI) is a metric that has been suggested to replace, or supplement, gross domestic product (GDP). The GPI is designed to take

Genuine progress indicator (GPI) is a metric that has been suggested to replace, or supplement, gross domestic product (GDP). The GPI is designed to take fuller account of the well-being of a nation, only a part of which pertains to the size of the nation's economy, by incorporating environmental and social factors which are not measured by GDP. For instance, some models of GPI decrease in value when the poverty rate increases. The GPI separates the concept of societal progress from economic growth.

The GPI is used in ecological economics, "green" economics, sustainability and more inclusive types of economics. It factors in environmental and carbon footprints that businesses produce or eliminate, including

in the forms of resource depletion, pollution and long-term environmental damage. GDP is increased twice when pollution is created, since it increases once upon creation (as a side-effect of some valuable process) and again when the pollution is cleaned up; in contrast, GPI counts the initial pollution as a loss rather than a gain, generally equal to the amount it will cost to clean up later plus the cost of any negative impact the pollution will have in the meantime. While quantifying costs and benefits of these environmental and social externalities is a difficult task, "Earthster-type databases could bring more precision and currency to GPI's metrics." It has been noted that such data may also be embraced by those who attempt to "internalize externalities" by making companies pay the costs of the pollution they create (rather than having the government or society at large bear those costs) "by taxing their goods proportionally to their negative ecological and social impacts".

GPI is an attempt to measure whether the environmental impact and social costs of economic production and consumption in a country are negative or positive factors in overall health and well-being. By accounting for the costs borne by the society as a whole to repair or control pollution and poverty, GPI balances GDP spending against external costs. GPI advocates claim that it can more reliably measure economic progress, as it distinguishes between the overall "shift in the 'value basis' of a product, adding its ecological impacts into the equation". Comparatively speaking, the relationship between GDP and GPI is analogous to the relationship between the gross profit of a company and the net profit; the net profit is the gross profit minus the costs incurred, while the GPI is the GDP (value of all goods and services produced) minus the environmental and social costs. Accordingly, the GPI will be zero if the financial costs of poverty and pollution equal the financial gains in production of goods and services, all other factors being constant.

Genuine Parts Company

Genuine Parts Company (GPC) is an American automotive and industrial parts distributor based in Atlanta, Georgia. Established by brothers Carlyle and Malcolm

Genuine Parts Company (GPC) is an American automotive and industrial parts distributor based in Atlanta, Georgia. Established by brothers Carlyle and Malcolm Fraser in 1928, the company has approximately 60,000 employees. In addition to the United States, GPC has operated in Australasia, Belgium, Canada, France, Germany, Mexico, the Netherlands, Poland, and the United Kingdom. GPC's subsidiaries include industrial parts distributor Motion as well as NAPA Auto Parts, which primarily sells parts in North America.

Genuine (horse)

Genuine, (Japanese: ??????, 28 April 1992 – January 19, 2015) was a Japanese Thoroughbred racehorse and sire. From the first crop of foals sired by Sunday Silence he won five of his twenty-one races and finished second seven times in a racing career which lasted from October 1994 until November 1997. After winning once as a juvenile in 1994 he improved to become one of the best colts of his generation in Japan in the following year, winning the Satsuki Sho and finishing second in the Tokyo Yushun. He remained in training for two more seasons, recording his best subsequent victory in the 1996 Mile Championship. Apart from his wins he was placed in the Yasuda Kinen and two runnings of the Tenno Sho. After his retirement from racing he had some success as breeding stallion in Japan and Australia.

Genuine Scooters

Genuine, or The Genuine Scooter Company is a Chicago-based manufacturer of motorscooters, notably the Stella and Buddy models. The company markets scooters

Genuine, or The Genuine Scooter Company is a Chicago-based manufacturer of motorscooters, notably the Stella and Buddy models. The company markets scooters and accessories through a network of over 240

dealers in the United States. In 2018 it began selling a 400cc air-cooled, single-cylinder motorcycle, under a sister brand 'Genuine Motorcycles'.

Genuine Opposition

The Genuine Opposition (GO) was an electoral alliance in the Philippines that contested the 2007 Philippine general election. The alliance's members were

The Genuine Opposition (GO) was an electoral alliance in the Philippines that contested the 2007 Philippine general election. The alliance's members were in opposition to President Gloria Macapagal Arroyo. It was originally called the United Opposition (UNO), founded by Makati Mayor Jejomar Binay in June 2005 to unite all politicians who wanted to impeach President Arroyo. UNO then reorganized itself and changed its name to Grand and Broad Coalition (GBC), with the UNO party under that coalition. On February 15, 2007, the group changed its name again to Genuine Opposition after a meeting with Senate President Manny Villar due to the defection of senators Edgardo Angara, Tessie Aquino-Oreta, and Tito Sotto to Arroyo's senatorial slate, TEAM Unity.

In the Senate election, GO won seven of the 12 contested seats. They gained one more seat in 2011 after an electoral protest, through which GO's Koko Pimentel replaced TEAM Unity's Migz Zubiri. However, GO failed to dominate the House of Representatives.

Genuine (film)

Genuine (original German title: Genuine, die Tragödie eines seltsamen Hauses; literally: Genuine, the tragedy of a strange house) is a 1920 German silent

Genuine (original German title: Genuine, die Tragödie eines seltsamen Hauses; literally: Genuine, the tragedy of a strange house) is a 1920 German silent horror film directed by Robert Wiene. It was also released as Genuine: A Tale of a Vampire. Director Wiene created Genuine as a follow-up to his massively successful film The Cabinet of Dr. Caligari, using the same writer and cinematographer who had worked on the earlier film. Production designer Cesar Klein even returned to contribute his bizarre Caligari-like imagery to the film.

The film's eponymous character, Genuine, is not actually a vampire, but rather a "vamp" (succubus) who uses her powers of seduction to torment and control the men who love her. The plot utilizes the it was all just a dream-type ending, as the proceedings are revealed to be a dream suffered by a man who falls asleep while reading a scary book. The film did not do well at the box office, but Wiene returned to form with his 1924 opus The Hands of Orlac. Genuine was edited down into a 43-minute condensed version, which is the cut that has been most commonly available. The complete film is available on YouTube.

Miller Brewing Company

but brought back in 2024. Miller Genuine Draft: Nicknamed MGD, it was introduced in 1985 as "Miller High Life Genuine Draft". Developed to replicate the

Miller Brewing Company is an American brewery based in Milwaukee, Wisconsin. It was founded in 1855 by Frederick Miller and was acquired by Molson Coors in 2016. Molson Coors continues to operate the Miller Brewery at the site of the original Miller Brewing Company complex in Milwaukee. Miller has produced several prominent beer brands, including Miller Lite, Miller High Life, and Milwaukee's Best.
