Government incentives for plug-in electric vehicles have been established around the world to support policy-driven adoption of plug-in electric vehicles. These incentives mainly take the form of purchase rebates, tax exemptions and tax credits, and additional perks that range from access to bus lanes to waivers on fees (charging, parking, tolls, etc.). The amount of the financial incentives may depend on vehicle battery size or all-electric range. Often hybrid electric vehicles are included. Some countries extend the benefits to fuel cell vehicles, and electric vehicle conversions.

More recently, some governments have also established long term regulatory signals with specific target timeframes such as ZEV mandates, national or regional CO2 emissions regulations, stringent fuel economy standards, and the phase-out of internal combustion engine vehicle sales. For example, Norway set a national goal that all new car sales by 2025 should be zero emission vehicles (electric or hydrogen). Other countries have announced similar targets for the electrification of their vehicle fleet, most within a timeframe between 2030 and 2050.

Transformers: Revenge of the Fallen

Autobot, When Robots Attack and Transformers: Revenge of the Fallen 2010 Wall Calendar. On June 23, 2009, Activision published a video game based on the film

Transformers: Revenge of the Fallen is a 2009 American science fiction action film based on Hasbro's Transformers toy line. The film is the second installment in the Transformers film series and a sequel to Transformers (2007). The film is directed by Michael Bay and written by Ehren Kruger, Roberto Orci, and Alex Kurtzman. Set two years after the events of Transformers, Revenge of the Fallen recounts the battle between the Autobots, led by Optimus Prime (voiced by Peter Cullen), and the Decepticons, led by Megatron (voiced by Hugo Weaving). The Autobots and Sam Witwicky (Shia LaBeouf) ally again to face an ancient Decepticon named the Fallen (voiced by Tony Todd), who pursues revenge on Earth.

Development on a sequel to Transformers began by May 2007. With deadlines jeopardized by possible strikes by the Directors Guild of America and the Screen Actors Guild, Bay has managed to finish the production on time with the help of previsualization and a scriptment. Shooting took place between May and September 2008, with locations in Egypt, Jordan, Pennsylvania, New Jersey, and California, as well as air bases in New Mexico and Arizona.

It premiered on June 8, 2009, at Roppongi Hills in Tokyo, Japan and was released on June 24 in the United States. The film received generally negative reviews from critics. It won three Golden Raspberry Awards at the 30th Golden Raspberry Awards ceremony and became the highest-grossing film to win the Worst Picture award at the time. The film surpassed its predecessor's box office gross worldwide with \$836.5 million, making it the fourth-highest-grossing film of 2009. It was nominated for the Academy Award for Best Sound Mixing, at the 82nd Academy Awards. With over 11 million home media sales in 2009, it was also the top-selling film of the year in the United States. It was followed by Transformers: Dark of the Moon in 2011.

The Affordable Care Act (ACA), formally known as the Patient Protection and Affordable Care Act (PPACA) and informally as Obamacare, is a landmark U.S. federal statute enacted by the 111th United States Congress and signed into law by President Barack Obama on March 23, 2010. Together with amendments made to it by the Health Care and Education Reconciliation Act of 2010, it represents the U.S. healthcare system's most significant regulatory overhaul and expansion of coverage since the enactment of Medicare and Medicaid in 1965. Most of the act remains in effect.

The ACA's major provisions came into force in 2014. By 2016, the uninsured share of the population had roughly halved, with estimates ranging from 20 to 24 million additional people covered. The law also enacted a host of delivery system reforms intended to constrain healthcare costs and improve quality. After it came into effect, increases in overall healthcare spending slowed, including premiums for employer-based insurance plans.

The increased coverage was due, roughly equally, to an expansion of Medicaid eligibility and changes to individual insurance markets. Both received new spending, funded by a combination of new taxes and cuts to Medicare provider rates and Medicare Advantage. Several Congressional Budget Office (CBO) reports stated that overall these provisions reduced the budget deficit, that repealing ACA would increase the deficit, and that the law reduced income inequality by taxing primarily the top 1% to fund roughly \$600 in benefits on average to families in the bottom 40% of the income distribution.

The act largely retained the existing structure of Medicare, Medicaid, and the employer market, but individual markets were radically overhauled. Insurers were made to accept all applicants without charging based on pre-existing conditions or demographic status (except age). To combat the resultant adverse selection, the act mandated that individuals buy insurance (or pay a monetary penalty) and that insurers cover a list of "essential health benefits". Young people were allowed to stay on their parents' insurance plans until they were 26 years old.

Before and after its enactment the ACA faced strong political opposition, calls for repeal, and legal challenges. In the *Sebelius* decision, the U.S. Supreme Court ruled that states could choose not to participate in the law's Medicaid expansion, but otherwise upheld the law. This led Republican-controlled states not to participate in Medicaid expansion. Polls initially found that a plurality of Americans opposed the act, although its individual provisions were generally more popular. By 2017, the law had majority support. The Tax Cuts and Jobs Act of 2017 set the individual mandate penalty at \$0 starting in 2019.

voters. Some U.S. states and local jurisdictions allow a voter to affix a sticker, with the write-in candidate's name, to the ballot in lieu of actually

A write-in candidate is a candidate whose name does not appear on the ballot but seeks election by asking voters to cast a vote for the candidate by physically writing in the person's name on the ballot. Depending on electoral law it may be possible to win an election by winning a sufficient number of such write-in votes, which count equally as if the person were formally listed on the ballot.

Writing in a name that is not already on the election ballot is a permitted practice in the United States. However, some other jurisdictions have allowed this practice. In the United States, there are variations in laws governing write-in candidates, depending on the office (federal or local) and whether the election is a primary election or the general election; general practice is an empty field close by annotated to explain its purpose on the ballot if it applies. In five U.S. states there are no elections to which it can apply, under their present laws. Election laws are enacted by each state and in the District of Columbia, to apply to their voters.
